

Touchless. Timely. Trusted.

CLEARSULTING AND COUPA

Across procurement and finance, hands-on processes are a main driver behind lack of critical insights—affecting everything from managing spend to supply assurance. And when those inefficient processes, like manual supplier onboarding and invoice matching, make it hard to sort through purchase and payment data to make game time decisions, you're losing your ability to think long-term.

Digitizing source-to-pay (S2P) can help. Using Coupa, we work with you to maximize automation and improve processes, helping your business realize better cash flow and providing transparency over your S2P landscape. You'll eliminate unnecessary steps and optimize the ones you need, so your people are freed up for value-added activities. That means you get the efficiency, accuracy, and control to drive your business forward.

Our Coupa-focused offerings

Coupa is *the* tool in the S2P toolbox, spanning every business activity from initial supplier research and negotiations to invoicing and final payment for goods received. And with Clearsulting's business awareness and process expertise, you're well on your way to a digitized—and maybe even touchless—S2P operation with the help of Coupa.

We've got you covered with:

Coupa BSM platform implementation and optimization

Overpayments analysis and reduction

Source-to-pay process improvement

Supplier optimization and enablement

Spend and operational analytics

Procure-to-pay target operating model design

Driving efficiency

Let's think of it like this: If automated S2P is the high-end sports car, supplier enablement is the key. Without it, a powerful technology like Coupa won't leave the garage. Creating a consumer-like experience for your suppliers means quicker transactions and more effective spend management in the long-term. We'll help you define and build a comprehensive supplier enablement strategy that works for you and with you—so you're ready to hit the road.

Why work with us?

We start by understanding the why behind your organization's S2P challenges. From there, we find ways to streamline processes, realize savings, and implement technology solutions in alignment with your existing landscape to drive stakeholder value.

Creating positive change through digital finance

Our innovative problem solving and proven technology workflows help finance and procurement leaders embrace digital to become better business partners. Acting as a link across your business, we connect your vision with the processes, technology, and systems that yield success. We offer digital reporting, enterprise performance management, finance effectiveness, financial close, risk advisory, source-to-pay, and treasury services that take a digital-minded approach to push your business further.

Get started

If you're ready to reduce friction and create better experiences with your Coupa implementation, let's talk.
